

## **Lawrenceburg Utility Systems new Deposit Policy**

As of January 1, 2012 Lawrenceburg Utility Systems (LUS) will be introducing a new Deposit Policy. LUS will now require a Deposit of adequate assurance for residential accounts in the amount of \$275.00. This Deposit covers a customer who would be requesting all services connected. The Deposit will be applied as follows: Electric Deposit \$100.00, Water Deposit \$75.00, and a Gas Deposit of \$100.00. The Service Charges in the amount of \$110.00 for all utilities will still apply. However, you now will have the option to allow LUS to run a Credit Report that would be used to set your Deposit amount. The report does not show up on your credit history and is structured on a lighting system. If your report comes back showing a Green light LUS will waive the deposit and all you will pay will be the service charges. If the report comes back revealing a Yellow light LUS will charge you half of the deposit amount and all service charges. And if the report reveals a Red light you will pay the full deposit amount and all service charges. This credit report will only be used to set Residential Deposits.

As of January 1, 2012 Commercial accounts will now have a Water deposit of no less than \$100.00, and a Gas deposit of no less than \$100.00. The Electric deposit of no less than \$342.00 remains the same.

All Commercial Gas only accounts will now require a minimum deposit of \$342.00. If Gas history exists for your location the customer will be charged the higher of \$342.00 or two times the highest monthly bill for any twelve month period.

### **Deposit Return Policy**

All Residential deposits and small commercial accounts (Rate code 40) will have their Deposits returned after 3 years if they have a credit history of 4 or less with LUS.

All large commercial accounts rate code 50 and up will have their deposits returned only after they terminate service with LUS. If you have any questions concerning this new policy feel free to contact LUS at 931-762-7161 and ask to speak with the customer service department.

(This Policy only applies to customers who connect service on or after January 1, 2012)
